

Dual Junction Circulator With 36 dB Isolation From 4 GHz to 8 GHz, 10 Watts And N Female

Circulators Technical Data Sheet

PE83CR1020

Features

- Dual-Junction Circulator
- Frequency Range of 4 to 8 GHz
- Female N Connectors
- Low VSWR
- Forward and Reverse Power of 10 watts

Applications

- Radar Systems
- Military
- Wireless Radio Systems
- Telecom Infrastructure
- Communication Systems
- R&D Labs
- Microwave Radio Systems

Description

The PE83CR1020 is a dual junction circulator offering 36 dB minimum isolation over a frequency band of 4 to 8 GHz. This coaxial part uses N female connectors on all ports and has a power rating of 10 watts in the forward and reverse direction.

Pasternack offers a wide variety of circulators to fit your needs. These unique devices enable two signals to use a single channel. The classic use of a circulator (a three port device) is for the line/coax between the antenna and a transceiver, allowing the signal to come from the antenna to the receiver while the transmit signal goes from the transmitter to the antenna. As a dual junction device, this is essentially two circulators in one package and has four ports. This allows for roughly twice the isolation of a standard circulator. By terminating one of the four ports (using a 50 ohm load), it becomes a three port device and can be connected as a standard circulator. An isolator can be created by terminating another port, creating a two port device. These devices can be used in antenna transmitting and receiving, radar, amplifier systems and anything that requires isolation from a signal reflection and the ability to send signals in opposite directions down a single channel. These circulators feature excellent insertion loss, high isolation and reliability.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	4		8	GHz
Impedance		50		Ohms
Insertion Loss			1	dB
Isolation	36			dB
VSWR			1.3:1	
Forward Power, CW			10	Watts
Forward Power, Peak			20	Watts
Reverse Power, CW			10	Watts

Electrical Specification Notes: Values at 25°C, sea level.

Mechanical Specifications

Size

Length	2 in [50.8 mm]
Width	0.63 in [16 mm]
Height	1 in [25.4 mm]
Weight	0.3 lbs [136.08 g]

Configuration

Design	Dual Junction
Connector 1	N Female
Connector 2	N Female
Connector 3	N Female
Connector 4	N Female

Environmental Specifications

Temperature

Operating Range	0 to +50 deg C
